

JUMP-START YOUR INFORMATION TECHNOLOGY RISK MANAGEMENT STRATEGY IN LESS THAN EIGHT HOURS

Each Workshop:

- Can be delivered independently of others in the series
- Less than one day in length and can be delivered at your site
- Drives improvement immediately with tools and guidance *adopted on Day 1*.

REVENUE – RISK MANAGEMENT, SECURITY, CONTINUITY

Risk Management cannot be bureaucratic and cumbersome. Under Fast-track IT Enablement™, it is neither.

Financial solvency and expansion are grounded in enterprise risk management -- thru a federated but disciplined framework; secure and quantified environment, with control validation throughout.

- Is ERM federated, nimble and holistically managed?
- What is the TCO of your Enterprise Risk Management framework and what is the ROI for enhancement?
- Are you managing audits without impact to your daily operation?
- Are all departments aligned to the ERM standard and measures?

The clock is ticking

Fast-Track IT Enablement™

Series D : Risk Management

Executive Workshops for Launching Action

WORKSHOP D10:

RISK MANAGEMENT, REGULATION AND PROFIT

DRIVER → *There is a TCO to process rigor and a bigger cost of failure. What is the impact/severity of failures on the operation and reputation of the business? Mature enterprise risk management ecosystems derive the highest profitability and reduce overall costs.*

Business continuity requires a crisis management plan, which has an objective TCO and an ROI. We provide the crisis management tiers and template, explicitly identifying a business continuity framework for your organization's long term health.

The protection of your corporate security is protection of not only sensitive information but also your customer base — preventing reputation collapse and legal action. Security improvement TCO and ROI is assessed and initiated immediately,
